*Introduction*  
M. Carrara, F. Moltmann

## Part I. Pluralities in logic

*Relations in terms of Plural Predication*  
T. Scaltsas

*How to harness Basic Law V*  
O. Linnebo

*Singularist predicative analyses and Boolos’s second-order pluralism*  
A. Oliver and T. Smiley

*The Ontology and Logic of Higher-Order Multitudes*  
P. Simons

*The Logicality of Second-Order Logic. An Analysis in Terms of Plural Arbitrary Reference and Acts of Choice*  
F. Boccuni, M. Carrara, E. Martino

## Part II. Pluralities in semantics

*Plural Reference and Reference to a Plurality. Linguistic Facts and Semantic Analyses*  
F. Moltmann

*Quantifiers, Determiners, and Plural Construction*  
Byeong-Uk Yi

*Mass and plural*  
T. J. McKay

*Linguistic plurality and the conceptualization of part structure*  
P. Acquaviva

*Partial Involvement: Groups and their Structure*  
A. Arapinis
