What we know:

we know.

is

something is

not

and then it is not

is not

when it is it is  
when it is not it is not

is is not

sometimes it is and is not  
at the same time

not is

when it is not it is not  
when it is it is

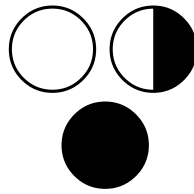

is not is

sometimes it is not and is  
at the same time

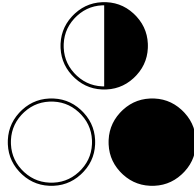

is is is not

not

what is becomes what is not

is is not

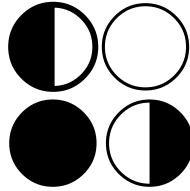

is

not

what is not becomes what is

not is is

not is not

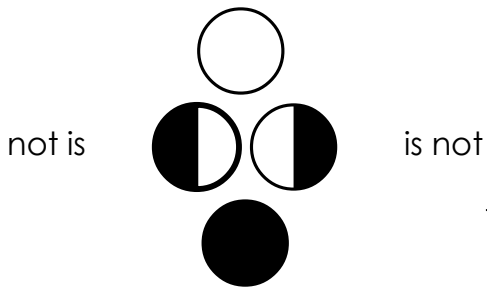

as things change

sometimes it is

sometimes it is and isn't

sometimes it isn't

is

not is

is not

not

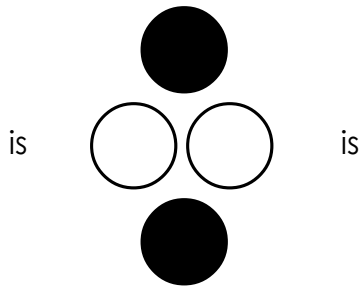

as things change

sometimes it is

sometimes it is and isn't

sometimes it isn't

not

not

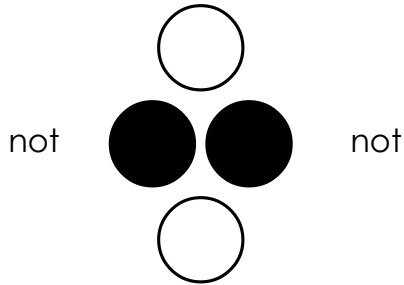

as things change

sometimes it is

sometimes it isn't

depending on where you are

is

is

if you stay in the same place

what was is

is now not

is

is

not

not

if you move

sometimes it is

and some times it is not

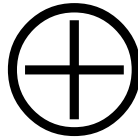

we can see all things as a circle  
with two sets of opposites

center

inside

outside |

circumference

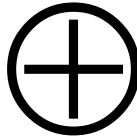

we can be anywhere we want on the

circle

moving

○ rotating

forward |

still

|

we can be moving or still, rotating or

forward

○

in all

○ in some  in none |

in one quadrant

|

we can be in all quadrants

or we can be in some--  
in one or none

we cannot insist that everyone else see the  
circle the way we do

how to use this book

flow through the diagrams quickly

notice that we are normally in one quadrant  
at a time in each circle

we move from quadrant to quadrant

we show one quadrant and hide the others

we attract people who are showing the  
quadrants that we are not showing

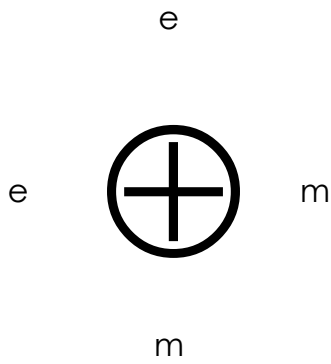

we force them into our quadrants

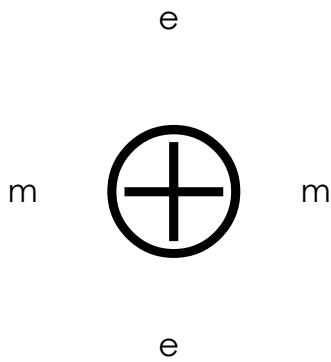

they force us into theirs

we are in all quadrants  
over time

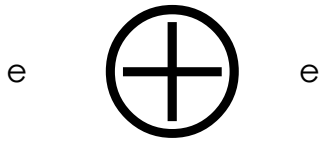

we can be in all quadrants in our minds

acceptance is our key
