

## **Niche 2022 [Doctoral]**

The following provides to facilitate a better understanding of Niche doctoral programs, which was elaborated on the frequency of major institutions within the doctoral program listings. While no definitive ranking unlike the college rankings and programs is available, we are able to conjecture the breadth of doctoral programs for the list institutions. Others on instant sense may see in a mild aura of college or program strength. Then, they may refer to A/B/C tables below the Niche Doctoral Rank, whose focus runs solely on the availability and breadth of programs.

## APPEDIX: PROGRAM LISTINGS IN ORDER

The number in a parenthesis indicates that of Niche doctoral programs, which was decided to show the best of picture in terms of size, popularity and academic tradition of the colleges and programs. Larger and more popular they are, more number of colleges or programs are selected from the pool of Niche doctoral listings. Hence, the colleges and major programs will appear with a higher number of list institutions than those of specialty or small programs. The number besides the institutions in a right row indicates the order of Niche listing as appeared in the website. The order is presumed to follow the overall listing of graduate schools with a reservation of definitive ranking for an individual college and program. The practice is distinguished from the treatment of Niche college rankings. In this backdrop, it is advised to read for the breadth of colleges and programs overall although others may see the individual listings in a mild aura of college or program strength.
