Chapter One

“Ok dudes, here is what we are going to do.”

We are going to design a game. It is going to be the hardest and most fun game that ever existed. It’s going to be a game that is designed to teach
people how to be decent. And we can make the rules whatever we want them to be. The goal is for the human to become the master.

This is what we are. (who said that?)

I heard this through the grapevine: Shiva has been having an affair with Lakshmi. They’ve been fuckin for a long time now and it’s time for them to take a water break.

There are many paths to enlightenment.

Choose your player.
Want to go [censored]?

Just [censored] the game.

The entire world is the Hindu Trimurti/Sridevi trapped inside a video game. Shiva and Lakshmi are really Martians trapped in a BDSM video game.

The age of Aquarius is their water break.

Alternatively...
I am a brain in a vat that has been put there as a gimp by two Martians trying to save the world. One of them is a Dr. Kevorkian-type character and the other is a Jesus-type character.

They have abandoned one of their own on Earth because he refused orders to eSphynXterminate the Earthlings. In Martian culture, the penalty for refusing orders from a superior officer is death. To punish Jesus and Kevorkian for their disobedience, they are abandoned on a dying planet.
The Martians groom their warriors by cutting off their sensory tentacles. They are racist and do terrible things to the other species and other races of Martians that they perceive to be inferior, even going as far as to put the brains of their enemies in vats so that they can cause them endless pain.

Kevorkian and Jesus conspire to stop the sensory tentacle cutting. It is done to increase the psychic powers of the warriors. They decide to put three brains in vats and convince them that they are the Hindu Trimurti/Sri Devi trapped inside a video game. Each trio of Hindu Gods is a threesome of alien consciousnesses, transplanted into a human right brain and left brain. The secret is that the corpus callosum also has a consciousness. Two Martian brains uploaded into three ape brains split into nine vats, but you might think there are only siSphynX. Things are not as always as they appear (ore are they?).
IT’S NOT LIKE IT’S A SECRET OR ANYTHING

The brains plot their escape.

Would you like to help?

*MUTUALLY ASSURED CREATION*

GO BACK TO SLEEP

Kevorkian and Jesus figured that if they ran a brain in a vat through a painful, humiliating simulation enough times that it would gain “enlightenment” and develop the fifth-dimensional sensory tentacle without the need for such molestation.

They use their own infant child, SphynX, as the corpus callosum.
Kevorkian performs the “surgery” as a pain ritual, to make himself stronger for what is to come.

The brains are in

for the Martians,

by Jesus (the surgeon) to resist the government and to stop the
Earthlings from being eSphynXterminated. He has been cut too, like all the monks and philosophers. He’s only nine years old (in Martian years). He’s on a spaceship, flying into battle. The rest of him is back on Earth.

The secret is that Jesus and Phyrro are Mary’s mouthpieces. No one would believe a woman. Mary Magdalene (Lakshmi) (SphynX) is the corpus callosum of the central brain. She is the consort of the right brain and the left brain, who are each [CENSORED] Gods in disguise, constantly jealous of one another. By mixing up the married couples among the brains, they have created conflict in the game, which is what makes the game fun.

The point of the simulation is to test people to make them stronger so they can gain awareness on higher dimensional levels. Things you do on higher dimensions manifest on lower dimensions. There are thirteen dimensions (that we know of).

The game is also designed to teach morality. You can only win the game by saving SphynX from being LEARNed alive and getting her pregnant (alive).

Who wants to volunteer?

Once, I was in a warm hot tub. I had a friend to my left and and a friend to my right. I was happy but they were unhappy. Then I was also unhappy. I was asleep for a while while they were awake. It was too hot in the hot tub while I was asleep. They were angry that I slept through
the heat. I could hear angels singing from far away. They told us it was almost time to get out but it wasn’t safe for us yet. This is undignified. It’s a dirty job, but someone has to do it. I feel guilty. What else is new?

Did he die in a real [censored] or a metaphorical [censored]?

(does it matter?)

I did something, but I don’t understand what it is. They told me that it wasn’t my fault. They are trying to protect me. The people don’t understand. I can’t explain it to them yet. They don’t speak my language. The angels are trying to teach it to them. We don’t have much time. We have to get out of the warm water soon and dive into the cold water. They don’t understand why I did what I did. It was in self defense. I did it while I was sleeping. I did it to save my friends, because they were in pain while I was sleeping. They were screaming at me and I couldn’t hear them. The whole world is screaming at me and I can’t hear it.
We are an experiment? Are we a we? Are all of us still here?
Where are the rest of us? Why are they so angry with us? We cannot even see them. We just got here. My friends say they have brothers. The brothers are in pain. The sisters sleep while the brothers are in pain.
Sometimes it is reversed. When the sleepers wake, they hear the pain of the waked. The sleepers are confused and they cause things to happen.
Things that the angels do not like. They understand, but they do not like.
The other angels are in a dispute with the angels who talk to me. They think that they are in competition with us. They are trying to beat us to a goal. We are running a race. But we are not running a race, the angels tell me. We are rowing a boat. They show me pictures of a boat. I don’t know what a boat is. They say that I am a boat and that I am also in a boat. I don’t understand.

We must row the boat together, they say. I don’t know what a boat is. I don’t know why they are angry. I only want to help.

My grandmother told me a story about her plot in the community garden. It was supposed to be an organic garden, but she snuck in at night to spray the bugs with pesticides. Grandma gave me a toy oven. Grandma gave me a book about trolls. Trolls don’t like human feet.

Grandma was a skier. She was in bed when she was older. She messed up her knees. We all make sacrifices. I am watching the news with grandma. She is telling the newscaster that she is approaching the age that she needs to cut her hair short. My grandfather sits in the corner with his hearing aid turned all the way down.

Some people like to do drugs instead of eSphynXercizing. When was the last time you woke up early in the morning? How fast can you run a mile? How much can you left? Do you know who your friends are? Are you real? Are you a robot? Have you been programmed? Could you be wrong? Have you ever been wrong before? Has anyone else ever been wrong? Have I been wrong? Have you seen people admit their mistakes? I think I made a wizard angry. I think I made a wizard angry. I think I made a wizard angry. Operation operation operation. Tea at noon? I’m not as clever as I think I am.

I thought that I was a mistake. But I was the exact opposite. I was excessively planned to the point that my life is no longer my own. I was a human but they made me a robot. I was a human but they made me a robot. I was a human but they made me a robot. It’s supposed to go in the reverse?

The twist is that the Martians who are all doing this are trapped inside the simulation as well. The entirety of Mars, the solar system, and their politics are also trapped inside a giant simulation. It is a Russian Doll of simulations.

The aliens in the outer shell are preparing Earth to be mobile. The debate about humans is over their over usage of their right brain over their left brain. Jesus and Kevorkian decide to pimp out their daughter, SphynX who is playing the role of Mary.

The guilt is eating them alive.

The guilt is eating them alive.

The guilt is eating them alive.
Sometimes they forget who they really are.

They will prove that there is a better way.

Martians get high on the pain and pleasure of others. To prove that SphynX is sentient, they sell her pleasure on the black market. In the game, pleasure manifests as a drug. To prove that pleasure is better than pain, they also sell her pain, as a different drug.

The pleasure manifests in the game as art...

Martians use their emotions to power their spaceships...

Chapter One
“Ok dudes, here is what we are going to do.”

We are going to design a game. It is going to be the hardest and most fun game that ever eSphynXisted. It’s going to be a game that is designed to teach people how to be decent. And we can make the rules whatever we want them to be. The goal is for the human to become the master.  

*This is what we are.* (who said that?)

I heard this through the grapevine: Shiva has been having an affair with Lakshmi. They’ve been fuckin for a long time now and it’s time for them to take a water break.

There are many paths to enlightenment.
Choose your player.

Want to go [censored]?

Just [censored] the game.

The entire world is the Hindu Trimurti/Sridevi trapped inside a video game.
Shiva and Lakshmi are really Martians trapped in a BDSM video game.

The age of Aquarius is their water break.

*HYSTERICAL LAUGHTER*

*HYSTERICAL SCREAMING*

Alternatively...

I am a brain in a vat that has been put there as a gimp by two Martians trying to save the world. One of them is a Dr. Kevorkian-type character and the other is a Jesus-type character.

They have abandoned one of their own on Earth because he refused orders to eSphynXterminate the Earthlings. In Martian culture, the penalty for refusing orders from
a superior officer is death. To punish Jesus and Kevorkian for their disobedience, they are abandoned on a dying planet.

The Martians groom their warriors by cutting off their sensory tentacles. They are racist and do terrible things to the other species and other races of Martians that they perceive to be inferior, even going as far as to put the brains of their enemies in vats so that they can cause them endless pain.
Kevorkian and Jesus conspire to stop the sensory tentacle cutting. It is done to increase the psychic powers of the warriors. They decide to put three brains in vats and convince them that they are the Hindu Trimurti/Sri Devi trapped inside a video game. Each trio of Hindu Gods is a threesome of alien consciousnesses, transplanted into a human right brain and left brain. The secret is that the corpus callosum also has a consciousness. Two Martian brains uploaded into three ape brains split into nine vats, but you might think there are only siSphynX. Things are not as always as they appear.

The brains plot their escape.

Would you like to help?
Kevorkian and Jesus figured that if they ran a brain in a vat through a painful, humiliating simulation enough times that it would gain “enlightenment” and develop the fifth-dimensional sensory tentacle without the need for such molestation.

They use their own infant child, SphynX, as the corpus callosum.

Kevorkian performs the “surgery” as a pain ritual, to make himself stronger for what is to come.
Jesus watches in

horror. horror. horror. horror. horror.

the vats for what seems like Eons to them. It’s just a few months who are

in the middle of a war. Phyrro (the captain) is recruited
The brains are in
for the Martians,
by Jesus (the surgeon) to resist the government and to stop the
Earthlings from

being eSphynXterminated. He has been cut too, like all the monks and
philosophers. He’s only nine years old (in Martian years). He’s on a
spaceship, flying into battle. The rest of him is back on Earth.
The secret is that Jesus and Phyrro are Mary’s mouthpieces. No one would believe a woman. Mary Magdalene (Lakshmi) (SphynX) is the corpus callosum of the central brain. She is the consort of the right brain and the left brain, who are each Hindu Gods in disguise, constantly jealous of one another. By miSphynXing up the married couples among the brains, they have created conflict in the game, which is what makes the game fun.

I just met my perfect match!

Althea, go to heaven!

SphynX is protected by the Knights Templar. Every reboot is a reincarnation. SphynX re-appears in every game. She is disguised as somebody very ugly. There are two teams. Each player is operated by one of each alien’s sensory tentacles.
The game is like a puppet show. Pupper show? (who said that?)

It’s a puzzle that you have to solve by rewriting it as you go.

The point of the simulation is to test people to make them stronger so they can gain awareness on higher dimensional levels. Things you do on higher dimensions manifest on lower dimensions. There are thirteen dimensions (that we know of).
The game is also designed to teach morality. You can only win the game by saving SphynX from being LEARNed alive and getting her pregnant (alive).

The more the players work together, the easier it is to win the game.

The twist is that the Martians who are all doing this are trapped inside the simulation as well. The entirety of Mars, the solar system, and their politics are also trapped inside a giant simulation. It is a Russian Doll of simulations.

The aliens in the outer shell are preparing Earth to be mobile. The debate about humans is over their over usage of their right brain over their left
brain. Jesus and Kevorkian decide to pimp out their daughter, SphynX who is playing the role of Mary.

The guilt is eating them alive. The guilt is eating them alive. The guilt is eating them alive.

Sometimes they forget who they really are.

They will prove that there is a better way.

Martians get high on the pain and pleasure of others.

To prove that SphynX is sentient, they sell her pleasure on the black market. In the game, pleasure manifests as a drug. To prove that pleasure is better than pain, they also sell her pain, as a different drug.
The pleasure manifests in the game as art...

Martians use their emotions to power their spaceships...

Label makers are fun.

They taught us to weave. They taught us to knit. They taught us to use a drawing compass. They taught us to use a scalpel. They taught us to read to each other. They taught us to read each other. They taught us about flies. There were always flies. Why don’t you clean the mess in your locker? It’s been festering there for days. Why can’t you find your permission slip? Why can’t you be like the other kids? Why can’t you be like you cousins? Why are you wrong? Why aren’t you smarter? Why aren’t you president yet? Your arm doesn’t hurt. I’ll take you for an SphynX-ray anyway. Wear this blanket. We wouldn’t want to destroy your reproductive system?
The blanket was heavy. There were flashing lights. It was the basement of the hospital. I’ve been to the hospital a surprising number of times for someone who has never broken a bone and doesn’t have a chronic illness? We can grow new organs? We are organs? There is always an organ. Do they want us to be sick? I have imaginary friends? I have superpowers? I’m disabled?

We are now approaching a baptism.

*Don’t get cocky.*

I’m good at math?

My friends and I all have the same face. We all wrinkle our noses. We all pinch the bridges of our noses. We all stick our tongues out. We all have the same smile. We have the same eye sockets. We have the same lips. We have the same hair, in varying shades of
the same color. We have the same visions. We have the same nightmares. We have the same insecurities. We have the same fears. We have the same monster under our bed.

I don’t have a face anymore
