## Abstract

Along with the major organ of the doctrinal operations, the Permanent Resolution Act, this research presented a situation review article on the Doctrine of the Chittagong Peace Process in Bangladesh with few global strikeable issues. Unarmed surviving Parbatya Chittagong nation of Buddhists population in Bangladesh has not yet been able to form their government since 1997 to 2023, so it has been assumed that Prime Minister Sheikh Hasina & Awami League Government of Bangladesh (ALGOB) cheated to weaponless freedom fighters Buddhists people by taking their weapons through the Chittagong Hill Tracts Peace Accord 1997 that was signed between Bangladesh and Chittagong Hill Tracts in order to a Commonwealth of Independence of Autonomy Government, Formation of Legislative Assembly House and Parliament Building Construction, which is also the last official initiative of the Parbatya Peace Process in the Chinese Belt and Road. Following the theater of war between the US-led NATO—Ukraine alliance and the Russian Federation, the 3rd World War situations intended to expand between Bangladesh and Myanmar. This doctrinal paper has been presented through codification of situations of the post-seizure war-fighting battles surviving cold and silent conflicts in Parbatya, Chittagong Hill Tracts, in order to deliver the seized nation onto a free pathway.

## Introduction

President Xi Jinping is working to activate the Chinese Belt and Road Nations' One Initiative (BRI). Whereas Bangladesh is also a member state of the Belt & Road and as well neighboring country Bharat which is also called as "India" in English society since England's Indias historical cultures were exported to the Hindustan Mahabharat Bers and Americas & the Caribbean, is one member too. Bangladesh and Bharat are also member nations of the English Commonwealth of Nations. The English King of the United Kingdom of Great Britain and Northern Ireland (UK) Charles III is a Monarch to Australia, Canada, and many Commonwealth states and territories/regions. King Charles III is also head of the Commonwealth of Nations. Therefore, their British rules and interests may come first, as well as British laws also available in Bangladesh, since the British Empire ruled this Great Bharat Belt.

## Discussion

Chittagong Hill-Tracts Peace Process is still surviving in Bangladesh for many decades whereas Buddhist majority people were fighting for their freedom & rights. Throughout the process, the Chittagong Hill Tracts Peace Accord was signed in 1997 between the Bangladesh Government and Parbatya CHT Freedom Fighters Forces in order to provide them independence of the region in autonomous status by allowing them to make Chittagong Hill-Tracts Regional Government and to recognize their nation's identity; also deployed Bangladesh Military Forces active duties, reserves, volunteers, civilian manpowers, military camps, bases, and establishments should be withdrawn from the entire Parbatya state. Currently, the Buddhists' majority population is known as indigenous, tribal, and small and micro nations, and many tribes have their own languages and their religious beliefs are Buddhism, which is herein the local faith of the majority, culture, and religious practices, and the population is also very local. However, the foreign faith and culture/practice of Arabian hegemonism Islamized in Bangladesh under another foreign faith Christism leadership. Thus, the local believers in Hinduism and Buddhism were eliminated by more than 90% and have been identified as a minor population group.

Bangladesh is now an Islamic state where most of the population is Muslim and government and private fields everywhere

the Muslimism prioritizes. In addition, rules under the Christism leadership of the United Kingdom Commonwealth of Nations, the most recently inaugurated King Charles III, is headed to all member states, including Bangladesh, and directly monarch King to the many member states and territories/regions in the world. Thus, religiously discriminated Buddhists people did not address ever in Bangladesh in the rightful ways, and the Chittagong Peace Process' last signed official agreement to allow Hill-Tracts majority people Buddhism believers to build their own government form and Bangladesh armies withdraw—still did not execute. However, Bangladesh has increased the number of Muslims by millions, which is another step to completely eliminate the Buddhist population in Bangladesh.

Now, it is very clear that the Prime Minister Sheikh Hasina and Awami League Government of Bangladesh cheated with the Chittagong Hill Tracts Buddhists population by the peace accord, whereas about a million rehabilitated Muslim population in the Chittagong Hill Tracts regions received a set of free and secure living conditions and increased their Muslim population by ever secured reproductive family planning, working to spread Islam and destroy Buddhism where all the works are conducted by the sponsor of the Bangladesh Government. However, rehabilitated people still have connections with their origin addresses from where they came in the Chittagong Hill Tracts region, so it is still possible to withdraw them from the Chittagong Hill Tracts region and send them back to their native locations. However, after a generation, they will be fully disconnected from their origin, and to withdraw them would not be possible. So, to the Chittagong Hill Tracts Regional Government of the tribal, indigenous, micronations, and freedom fighters through the Chittagong Hill Tracts Peace Accord 1997 was the last yet official initiative of the Chittagong Peace Process was a big deception by Sheikh Hasina & AL-GOB. Bangladesh made the Buddhists freedom fighters unarmed by taking deposits of all arms and weapons and did not yet implement the signed peace agreement, but also made more rightful free access to the Muslim people to Islamize there everywhere by perishing Buddhists people. However, the purpose of all deals was to establish the Independence and Autonomy Government of a Parbatya Commonwealth, the formation of legislative assembly houses, and parliamentary building construction.

Over the years, several emails, press releases, and messages/information/queries were sent to many first authorities of the Bangladeshi government, including the Prime Minister's Office, but nobody spoke about it. Prime Minister Sheikh Hasina and Awami League Government of Bangladesh took the last official initiative of the Chittagong Peace Process by conducting and signing the CHT Peace Accord 1997, but now AL-GOB again in the government power and Sheikh Hasina is also Prime Minister since 2009, and they have not yet implemented the peace agreement's major treaties. In addition to the historical and legal background, the General Hari Seldon Private Commission Resolution Act was introduced in the Parbatya Commonwealth Act for Independence of Autonomy Government, formation of legislative assembly houses, and parliamentary building construction.

Bangladesh also became a member of the Chinese Belt and Road Initiative, whereas China also provided Age's best significant development support to Bangladesh. Therefore, it is a very relevant, important, and urgent issue to allow China as the head of the international government organization One Belt and One Road Initiative, whereas Chinese rules and regulations may be partially applicable in Bangladesh to provide support to the Chittagong Peace Process, including adaptation of the developed legislative issues for the people of Parbatya nation's ownership which very seriously violated and was fallen very badly. Therefore, the rising peace may not be possible aslong Bangladesh armed forces and government are having presence/access in the Chittagong Hill Tracts region but Parbatya one region autonomy of special administration or sovereignty by the two-state solution. Otherwise, there should be no reason to survive the world's largest indigenous population group/nation state of Parbatya CHT in a single place in the coming decades.

However, the Global War on Terrorism, which again may be called the World War on Global Terrorism, is actually the third world war, whereas Russia also joined the World War against the NATO-Ukraine alliance's intention of the operation searchlight of finding Islamic terrorism forms in the Independent Nation states, especially the commonwealth leader of the Russian Federation. On the other hand, Myanmar also intends to attack Bangladesh on the same issues if Islamic terrorism threatens the Union of Myanmar and religious Buddhists' population freedom and rights of autonomous Regional Government establishment through the implementation of the CHT Peace Accord 1997, which has not yet been enforced from 1997 to 2023.

### **Domestic Situation Review**

The Chittagong Hill Tracts Peace Accord 1997 established an independent "Regional Council" for the Indigenous people, which was meant to serve as the supreme sovereign body/authority or a major organ for the state government system in relation to certain matters. Later, it is assumed that the meaning of the word "Council" has tried to change the meaning of other words such as mass-gathering, meeting/seminar, conference, etc., that is, annual conferences or annual councils, which have been introduced to exercising/practices among civil societies, political parties, and various nationwide activities. It fully misguided to the purpose of the deal and attempted to make the CHT Peace Accord 1997 meaningless and to perish all its historical and legal components to be unclaimable by making the Buddhists' indigenous

tribes ethnic people disappear from the Parbatya Chittagong Hill Tracts Region.

For example, Congress is a legislature of the federal government of the United States, which is composed of two houses: The Senate floor(s) and the House of Representatives. However, in the Bharat and British-Indian sub-continental regions in Asia, Congress is known as a political party, the Congress Party, or simply "Congress", which was founded by Allan Octavian Hume (Wikipedia: Indian National Congress). Furthermore, the term "Congress" is also used for the meaning of mass gatherings of the people like meeting/seminar, conference i.e. annual conference or annual congress. As also The European Council is a collegiate body of the European Union, among the 3 supreme institutions, alongwith 2 others i.e. The European Commission is an executive body and The European Parliament is a legislative body of the European Union.

However, the Chittagong Hill Tracts Peace Accord 1997 in the course of the Parbatya separation movement and war-fighting battles was a historical legal agreement for independence of the autonomy government, formation of legislative assembly house, and parliament building construction, towards a commonwealth state of the Parbatya's kingdoms, which (was) led by three kings, also called the Chief of the Chakma Circle (called chakma people), Chief of the Marma Circle (also called bohmong people), and the Chief of the Mong Circle (actually marma people). Marma people from the Mong and Bohmong circles also called Moghs wheres they established 2 separate circles: Marma/Bohmong and Mong (Wikipedia: Tribal Monarchy in the Chittagong Hill Tracts, Chakma Circle, Bohmong Circle, Mong Circle). The Bangladesh government doesn't acknowledge their kingship or royal government system(s) as still declining autonomy/sovereignty of Parbatya, even signed regional government deals yet not been permitted but somehow un/officially uses the term chieftdom, chieftain, etc.

### Statement of the Data

This situation review article has been written mainly based on the previous memory and personal observation which I learned from time to time by watching television news, listening to radio broadcasts, reading printed newspapers & online news websites, articles from various sources and also physically traveled the entire Parbatya region. In this capacity, I wrote a few blog posts and social media posts, especially on Facebook and X (Twitter), and also wrote a few messages, notes, and articles on this topic, which were delivered to more than 300 journalists in most of all news media in Bangladesh and approximately 200 people of the international community around the world. Finally, a synopsis of the complete/overview information was published in the GitHub post and its DataCommit section, and Asgardia Space Nation's website. To the best of my knowledge, the provided information is accurate, and the article does not have conflicts of interest unless the provided (accurate) information may conflict with any group of people.
