

## 47 Vietnamese people are among the world's most influential scientists in 2023

 VNExpress | 06/10/2023

Vietnamese scientists on the list of "100.000 influential scientists" this year increased sharply in number and rank.

The ranking was selected by a group of scientists led by Professor John PA Ioannidis and colleagues from Stanford University (USA) on the Scopus database and published by Elsevier Publishing House.

According to the top 100.000 list, 64 individuals are working at Vietnamese universities. Of these, 47 are Vietnamese scientists. Compared to 2022, this list increases by 12.

In the top 10.000, Vietnam has 7 people, an increase of 5 people compared to 2022, including Associate Professor, Dr. Hoang Anh Tuan (Ho Chi Minh City University of Technology, ranked 1.119), Associate Professor, Dr. Tran Xuan Bach (Ha Long Medical University). Internal Affairs, ranked 3.240), Dr. Pham Thai Binh (University of Transport Technology, ranked 4.444), Dr. Hoang Nhat Duc (Duty Tan University, ranked 5.551), Professor Dr. Nguyen Dinh Duc (University Hanoi National University, ranked 5.657), Dr. Tran Nguyen Hai (Duty Tan University, ranked 6.669), and Associate Professor, Dr. Le Hoang Son (Hanoi National University, ranked 6.982).

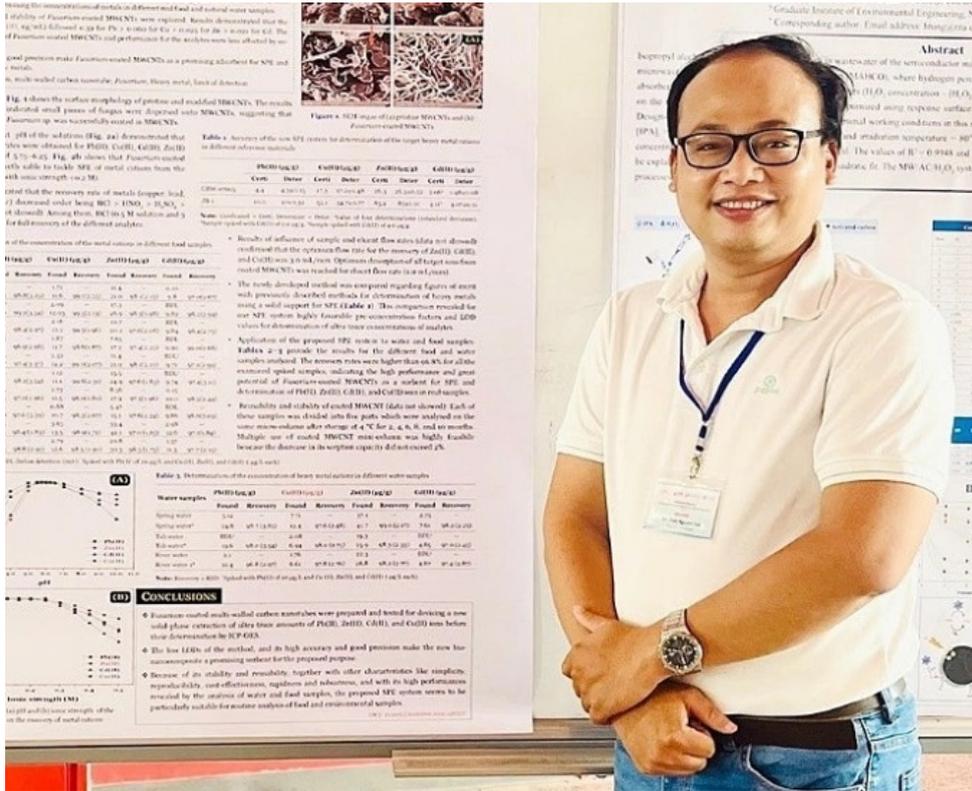

Among them, Associate Professor, Dr. Le Hoang Son and Professor, Dr. Nguyen Dinh Duc (Hanoi National University) reached the top 5 consecutive years in 2019, 2020, 2021, 2022 and 2023.

Ranking of 100.000 influential people based on the most cited scientific articles. The list was first published in the journal PLoS Biology in August 8. The ranking uses Scopus database (part of Elsevier Publishing) from 2019 to October 1960.

Evaluation criteria are based on impact indicators in the scientific community (total number of citations, Hirsch h-index; Schreiber hm-index adjusted for co-authorship, number of citations of published articles as sole author, primary author, and last author, and a composite index).

The list of scientists is divided into 22 main fields and 174 sub-fields (disciplines/specialties). Each person needs a minimum of 5 articles.
